STAND | WE WALK TOGETHER

STAND Partner Pledge for Transparency and Ethical Practice

As a trusted rehabilitation centre receiving support and/or prosthetic components from STAND, we commit to upholding the values of transparency, equity, and patient-centred care in every aspect of our operations. We recognise that our partnership exists to expand access to appropriate, affordable prosthetic limbs across sub-Saharan Africa.

By signing this pledge, we affirm our shared responsibility in safeguarding the integrity of STAND's work and ensuring that every donated component is used ethically, responsibly, and to the greatest benefit of those in need.

We pledge that:

1. **No component received from STAND will be sold** – in full or in part – under any circumstances. These components are provided free of charge to reduce the financial burden on recipients and must remain so.
2. **We will work towards removing barriers to prosthetic access**, ensuring that recipients face the lowest possible costs for a complete prosthesis.
3. **We will strive for continual improvement** in the quality of care and rehabilitation services offered, ensuring each client receives a safe, comfortable, and well-fitting device.
4. **We will engage with STAND in good faith** – offering feedback on stock use and needs, participating in knowledge sharing, and reporting any issues related to misuse, resale, or safety.
5. **We agree to maintain transparency** with our service users, STAND, and our communities about how donated components are used, stored, and distributed.
6. **We commit to upholding robust safeguarding practices** to ensure our rehabilitation centre is safe, inclusive, and respectful spaces for all, particularly women, children, and vulnerable individuals.

By signing this pledge, we reaffirm our commitment to upholding the values that underpin STAND's mission: dignity, independence, collaboration, and trust.
